- **Educating children with Down Syndrome can present us with unfamiliar challenges.**
- **How exactly do we provide the right type of curriculum with appropriate levels of expectation?**
- **What does good practice look like? What are the keys to unlocking a child's learning potential?**

Delivered by Downright Special staff, this day of training will cover key facts about the multifaceted nature of Down Syndrome and an in-depth exploration of the learning profile for Down Syndrome and its implications for classroom practice. It will also include a session delivered by the Speech and Language Therapy Service which looks at the specific speech, language and communication profile of children with Down Syndrome.

We would recommend that teachers and teaching assistants attend the course together as the day covers issues of both classroom and one to one practice. SENCOs are also invited to attend.
