

USING APPS WITH CHILDREN AND ADULTS WHO HAVE DOWN SYNDROME

A workshop with Colin Dean from Special iApps

**At: Bodmin Road Church, Padstow Close, Bransholme,
Hull, HU7 4HE**

Monday 11th May

Coffee & Tea available from 10am, Sandwich lunch at noon
Workshop finishes at 2.30pm

- Primary focus on Apple iPad and iPhone, but includes Android and Windows mobile devices.
- Key focus on using apps to teach children with Down syndrome, but includes how young adults are using this technology.

Participants are encouraged to bring their own mobile device if they have one. Paper copies of the presented material will be made available. Workshop will be split into 90 minutes in morning and 90 minutes in afternoon, mixing presentation and hands-on, and covering:

- Introduction to Special iApps
- Getting the most out of apps from Special iApps
- Accessibility features built into the devices to maximise learning and minimise frustration
- How to find the best apps that are suitable for learning difficulties and disabilities
- Technical and legal issues around securing data, backups and recovery, and cloud services
- Obtaining iPads using grants

Attendance:

Please email office@downrightspecial.co.uk before the end of April.

Please also let us know if you have an ipad or android or windows tablet and whether or not you are able to bring it with you.

Cost:

Parents: We will not be imposing a charge to our parents to attend this workshop however we would be grateful for donations on the day to cover the costs of the sandwich lunch and refreshments.

Professionals: The cost will be £25 per member of staff. *Payable upon confirmation of a place.*
